Release notes for the 2.3.0 of the EIOPA **Pension Funds** DPM and XBRL taxonomy

I Introduction

This pension funds DPM and XBRL taxonomy 2.3.0 is provided to be used from the 30/09/2019 reference date until a new version is announced in line with the [Governance of Taxonomy Releases](#).

Please note that some of the Pension Funds documents are labelled with Hotfix suffix (2.3.0 hotfix). In particular the documents where hotfix suffix was applied for 2.3.0 Pension Funds are:

- EIOPA_DPM_Dictionary_2.3.0_Hotfix.xlsx that includes the 2.3.0 Solvency 2 DPM dictionary enriched with the Pension funds 2.3.0 elements. It is labelled as hotfix however **there are NO CHANGES for the 2.3.0 Solvency 2 elements**.
- EIOPA_Unified_DPM_Database_2.3.0_Hotfix.zip includes the Pension Funds 2.3.0 and the 2.3.0 Hotfix version.
- EIOPA_XBRL_Filing_Rules_2.3.0_Hotfix.pdf includes the changes needed for S2 2.3.0 hotfix and the new pension fund section. See history table within the file.

Note that this hotfix suffix is just to align the name of the common artefacts with the Solvency 2 Taxonomy version (publishing the Solvency 2 2.3.0 hotfix at the same date than the Pension Funds 2.3.0 release on 5th of November).

It covers both the definition of reporting requirements and the underlying regulations for this release.

II Underlying regulations

- Decision of the Board of Supervisors on EIOPA's regular information requests towards NCAs regarding provision of occupational pensions information ([EIOPA BoS/18 114 of 10 April 2018](#));

VIII Important notes

- This 2.3.0 includes a structured representation of EIOPA and ECB Pension Funds reporting requirements. It provides National Competent Authorities (NCAs) and National Central Banks (NCBs) with the technical format to collect individual data from reporting entities and provides NCAs with the technical format to submit individual and aggregated data to EIOPA in XBRL technology.
- NCAs and NCBs may choose on a national level if the EIOPA Pension Funds XBRL taxonomy is used to collect data from reporting entities as data collection may be implemented with different means.
- The 2.3.0 Hotfix release comprises individual data reporting requirements of both EIOPA and ECB, in order to facilitate a single reporting flow.
- Technical specifications are also needed for NCAs submissions of aggregated data to EIOPA. In order to allow for this business requirement to be fulfilled, some of the required technical data points are included.
- "Derogations, EP and templates" and "EIOPA's explanations for L2 TBR" are added for information to the Annotated templates in order to provide an overview of differing reporting obligations. Differing reporting obligations may apply due to derogations granted to reporting entities by national regulators and central banks. Some improvements could still be implemented in the next releases. For more information, please refer to the underlying regulations and contact your NCA and NCB.
