Annex II: Instructions to reporting templates

This Annex contains instructions in relation to the templates included in Annex I of this Decision. The first column of the tables identifies the items to be reported by identifying the columns and rows as showed in the template in Annex I.

All reporting items shall be reported, except when otherwise stated in these instructions.

**NOTE:** blue font is used to identify the PEPP Prudential requirements

**Content of the reporting (PF.01.01.24, PF.01.01.25, PF.01.01.26, PF.01.01.27, PF.01.01.28 and PF.01.01.29)**

This section relates to quarterly and annual submission of both individual and aggregated information.

This template sets out the content of the submitted reporting package.

If a special justification is needed, such information should not be submitted as part of the reporting template itself. Instead, the justification should be discussed with the National Competent Authorities.

**Liabilities**
### Technical provisions

Total value of technical provisions. Unless justified for prudential reasons, the liability of a defined contribution scheme is the current market value of the fund’s assets related to the DC schemes.

### Margin for adverse deviation

The value of the margin for adverse deviation.

### (Re)insurance payables

Payments due and past due to insurance or reinsurance undertakings and intermediaries in relation to technical provisions.

### Any other liabilities, not elsewhere shown

Liabilities not elsewhere shown.

### Total liabilities

Total value of the liabilities.

### Regulatory own funds

Regulatory own funds as referred to in Article 15 of IORP Directive.

### Reserves

Total of Statutory and Free reserves

### Statutory reserves

Statutory reserves as referred to in Article 16(2)(b) of IORP Directive.

### Free reserves

Free reserves as referred to in Article 16(2)(b) of IORP Directive.

### Profit reserves

Additional profit reserves.

---

**Cross-border activities- individual reporting only (PF.04.03.24)**

For the purposes of providing individual information at Member State level about cross-border activities, NCAs shall submit the following information on an annual basis. ‘Cross-border activity’ means operating a pension scheme where the relationship between the sponsoring undertaking, and the members and beneficiaries concerned, is governed by the social and labour law relevant to the field of occupational pension schemes of a Member State other than the home Member State.

</tbody>
</table>

| All transaction costs, which should include costs incurred as a result of the acquisition and disposal of investments, including indirect costs for when part of the portfolio is invested in one or more investment funds: |
| Explicit costs such as broker commissions (exchange fees, settlement fees, clearing fees) and transaction taxes (financial transaction tax); |
| Amounts charged to investors at the entry into or withdrawal from an investment fund, in favour of the fund, the manager, and/or the already existing investors; |
| Indirect transaction costs: subscription and redemption fees charged by underlying investment funds; |
| Acquisition costs (within investment funds or, in fund-of-funds structures) such as broken deal expenses, appraisal and auditing fees, fiscal and legal consultancy fees related to transactions, bank fees; |
| Costs of direct investments in private equity; |
| Implicit transaction costs, which represent the loss of value implied by the difference between the buying or selling price and the mid-market price of the asset (embedded in the bid-offer spread). |
## Costs paid by sponsor

Additional costs borne by the sponsor, not charged to the IORP. For example, transaction costs (broken deal costs), administrative costs (staff, IT equipment and office).

## Other costs

Other expenses, incurred in relation to the pension scheme arrangement, not included in C0050-C0070/R0060-R0090.

## Total expenses

Total value of expenses and including look-through where appropriate, incurred during the reporting period.

### List of assets (PF.06.02.24, PF.06.02.25 and PF.06.02.26)

For the purposes of providing individual and aggregate information at Member State level, NCAs shall submit the following information on a quarterly and annual basis.

### Information on position held

<table>
<thead>
<tr>

</tbody>
</table>
individualised. Loans to other than natural persons shall be reported line-by-line.

This item is not applicable for CIC 95 - Plant and equipment (for own use) as those assets are not required to be individualised, CIC 71 and CIC 75 (unless required by the national supervisory authority).

| C0140 | Issuer Name | Name of the issuer, defined as the entity that issues assets to investors. When available, this item corresponds to the entity name in the LEI database. When this is not available corresponds to the legal name. 

Regarding Investment fund/shares/undertakings, the issuer name is the name of the fund manager. 

The following shall be considered:

- Regarding CIC category 4 - Collective Investments Undertakings, the issuer name is the name of the fund manager (entity). The authorised management company who can and is responsible for managing the fund is the one to be reported regardless of whether some activities have been outsourced, including the actual management of the portfolio, i.e. the decision on buying/selling; 

- Regarding CIC category 7 - Cash and deposits (excluding CIC 71 and CIC 75), the issuer name is the name of the depositary entity; 

- Regarding CIC 87 and CIC 88, this item shall contain “Loans to AMSB members” or “Loans to other natural persons”, according to its nature, as those assets are not required to be individualised; 

- Regarding CIC 8 - Mortgages and Loans, other than CIC 87 and CIC 88 the information shall relate to the borrower; 

- This item is not applicable for CIC 71, CIC 75, and CIC category 9 - Property. |

| C0150 | Issuer Code | Issuer code using the LEI. If LEI code is not available this item shall not be reported. 

The following shall be considered:

Regarding CIC category 4 - Collective Investments Undertakings, the issuer code is the code of the fund |
manager (entity). The authorised management company who can and is responsible for managing the fund is the one to be reported regardless of whether some activities have been outsourced, including the actual management of the portfolio, i.e. the decision on buying/selling;

Regarding CIC category 7 - Cash and deposits (excluding CIC 71 and CIC 75), the issuer code is the code of the depositary entity;

Regarding CIC category 8 - Mortgages and Loans, other than CIC 87 and CIC 88 the information shall relate to the borrower;

This item is not applicable for CIC 71, CIC 75, and CIC category 9 - Property;

This item is not applicable to CIC 87 and CIC 88.

| C0160 | Type of issuer code | Identification of the type of code used for the “Issuer Code” item. One of the options in the following closed list shall be used:
1 - LEI
9 - None

This item is not applicable to CIC 87 and CIC 88.

This item is not applicable for CIC 71, CIC 75, and CIC category 9 - Property. |
|---|---|---|
| C0170 | Issuer Sector | Economic sector of issuer based on the latest version of NACE code (as published in EC Regulation). For NACE sections A to N full four-digit reporting of the NACE codes is required, i.e. the letter identifying the Section followed by the 4 digits code for the class shall be used (e.g. ‘K6411’). For the remaining sections the letter reference of the NACE code identifying the Section shall be used as a minimum for identifying sectors (e.g. ‘P’ or ‘P0111’ would be acceptable).

The following shall be considered:

Regarding CIC category 4 - Collective Investments Undertakings, the issuer sector is the sector of the fund manager;

Regarding CIC category 7 - Cash and deposits (excluding CIC 71 and CIC 75), the issuer sector is the sector of the depositary entity; |
Regarding CIC category 8 - Mortgages and Loans, other than CIC 87 and CIC 88 the information shall relate to the borrower;

This item is not applicable for CIC 71, CIC 75, CIC 09, and CIC category 9 – Property;

This item is not applicable to CIC 87 and CIC 88.

| C0180 | Issuer Group | Name of issuer’s ultimate parent entity. For collective investment undertakings the ultimate parent of the fund manager (entity) should be reported.

The ultimate parent is defined as the controlling enterprise of a group.

Where a controlling enterprise and one or several controlled enterprises are combined under the common management of the controlling enterprise, they form a group; the individual enterprises are group member companies. Where a control agreement is in place between enterprises, or where one enterprise has been integrated into another, the enterprises are to be regarded as enterprises combined under common management. The assumption is that a controlled enterprise forms a group with the controlling enterprise.

Where legally independent enterprises are combined under common management without one enterprise being controlled by the other, they likewise form a group of enterprises; the individual enterprises are group member companies.

The ultimate parent should be understood at least as ultimate consolidation entity, defined as the highest-level legal entity preparing consolidated financial statements (including the expectation of the national supervisory authority in this area).

When available, this item corresponds to the entity name in the LEI database. When this is not available corresponds to the legal name.

The following shall be considered:

| C0240 | Alternative investment | Alternative investment (Article 4 (1) of Directive 2011/61/EU (AIFMD)):
1 - Alternative investment
2 - No alternative investment |
| C0241 | Bail-in rules | Identify if the asset is subject to bail-in rules, in line with Article 43 and 44 of the Directive 2014/59/EU (the Bank Recovery and Resolution Directive - BRRD). One of the options in the following closed list shall be used:
1 - Yes
2 - No
9 - Not applicable |
| C0242 | Crypto-assets | Identify assets linked to crypto-assets. |
Crypto-asset means a digital representation of value or rights which may be transferred and stored electronically, using distributed ledger technology or similar technology.

One of the options in the following closed list shall be used:

1 - Electronic money token - a type of crypto-asset the main purpose of which is to be used as a means of exchange and that purports to maintain a stable value by referring to the value of a fiat currency that is legal tender

2 - Asset-referenced token - a type of crypto-asset that purports to maintain a stable value by referring to the value of several fiat currencies that are legal tender, one or several commodities or one or several crypto-assets, or a combination of such assets

3 - Utility token - a type of crypto-asset which is intended to provide digital access to a good or service, available on DLT, and is only accepted by the issuer of that token

4 - Other crypto-assets

5 - No

| C0250 | External rating | Rating of the asset at the reporting reference date issued by the nominated credit assessment institution (ECAI).
Applicable at least to CIC categories 1 - Government bonds, 2 - Corporate bonds, 5 - Structured notes, 6 - Collateralised securities, 8 - Mortgages and Loans (other than CIC 87 and CIC 88), where available.
If an issue rating is not available, the item should be left blank. |

Collective investment undertakings – look through approach (PF.06.03.24)

For the purposes of providing individual information at Member State level, NCAs shall submit the following information on an annual basis. Only those IORPs that are included in the scope of the mandatory individual reporting as referred to in Article 1.14 of Decision 23/030 are required to report this template.

In the template ‘collective investment undertakings – look through approach’ (PF.06.03.24), the following information about all collective investment undertakings held shall be reported, if the total value invested in collective investment undertakings exceeds 10% of the total value of investments. The look-through information may cover only 90% of the total value of the collective investment undertakings. In that case, the remaining 10% (non-material residual values) shall be reported in PF.06.03.24 as ‘CIC_4’, country ‘AA’ and “Aggregated currencies due to application of threshold”.

<td>For liabilities (L) a positive amount shall be reported. However, when reporting derivatives (A to F) if the amount corresponds to a liability, it shall be reported as a negative amount.</td>
</tr>
</tbody>
</table>
Therefore, for derivatives, the total amount can be positive (if an asset) or negative (if a liability).

Open derivatives (PF.08.01.24, PF.08.01.25, PF.08.01.26)
This section relates to quarterly and annual submission of information for individual entities and aggregate reporting. Only those IORPs that are included in the scope of the mandatory individual reporting as referred to in Article 1.14(a) of Decision 23/030 are required to report this template quarterly.

The derivatives categories referred to in this template are the ones defined in Annex IV - Assets Categories of this Regulation and references to CIC codes refer to Annex VI - CIC table of this Regulation. This template contains an item-by-item list of derivatives held directly by the undertaking (i.e. not on a look-through basis), classifiable as asset categories A to F.

Derivatives are considered assets if their market value is positive or zero. They are considered liabilities if their market value is negative. Both derivatives considered as assets or considered as liabilities shall be included.

Information shall include all derivatives contracts that existed during the reporting period and were not closed prior to the reporting reference date.

If there are frequent trades on the same derivative, resulting in multiple open positions, the derivative can be reported on an aggregated or net basis, as long as all the relevant characteristics are common and following the specific instruction for each relevant item.

Items shall be reported with positive values unless otherwise stated in the respective instructions.

A derivative is a financial instrument or other contract with all three of the following characteristics:

Its value changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other variable, provided in the case of a non-financial variable that the variable is not specific to a party to the contract (sometimes called the ‘underlying’).

It requires no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.

It is settled at a future date.

This template comprises two tables: Information on positions held and Information on derivatives.

On the table Information on positions held, each derivative shall be reported separately in as many rows as needed in order to properly fill in all non-monetary variables, requested in that table. If for the same derivative two values can be attributed to one variable, then this derivative needs to be reported in more than one line.

In particular, for derivatives that have more than a pair of currencies, it shall be split into the pair components and reported in different rows.

On the table Information on derivative, each derivative shall be reported separately, with one row for each derivative, filling in all variables requested in that table.
The information regarding the External rating (C0290) and Nominated ECAI (C0300) may be limited (not reported) in the following circumstances:

- through a decision of the national supervisory authority; or

- through a decision of the national supervisory authority in the cases where the IORPs have in place outsourcing arrangements in the area of investments that lead to this specific information not being available directly to the undertaking.

### Information on positions held

<tbody>
<tr>
<td>C0030</td>
<td>Portfolio/pension scheme type</td>
<td>Financial instrument is linked to a specific portfolio, which ID is to be reported here; - or if not attributable to a specific portfolio, it is linked to a scheme type: 1 - DB scheme 2 - DC scheme 3 - cannot be allocated to a scheme type or specific portfolio 4 - cannot be allocated to occupational or personal pension portfolio</td>
</tr>
<tr>
<td>C0090</td>
<td>Instrument underlying the derivative</td>
<td>ID Code of the instrument (asset or liability) underlying the derivative contract. This item is to be provided only for derivatives that have a single or multiple underlying instruments in the IORPs’ portfolio. An index is considered a single instrument and shall be reported.</td>
</tr>
</tbody>
</table>
| Identification code of the instrument underlying the derivative using the following priority:  
- ISO 6166 code of ISIN when available;  
- Other recognised codes (e.g.: CUSIP, Bloomberg Ticker, Reuters RIC);  
- Code attributed by the undertaking for the underlying instrument when the options above are not available, and must be unique and consistent over time for that instrument;  
- “Multiple assets/liabilities” if the underlying assets or liabilities are more than one.  
If the underlying is an index, then the code of the index shall be reported.  

<table>
<thead>
<tr>
<th>C0110</th>
<th>Use of derivative</th>
</tr>
</thead>
</table>
| Describe the use of the derivative (micro / macro hedge, efficient portfolio management).  
Micro hedge refers to derivatives covering a single financial instrument (asset or liability), forecasted transaction or other liability.  
Macro hedge refers to derivatives covering a set of financial instruments (assets or liabilities), forecasted transactions or other liabilities.  
Efficient portfolio management refers usually to operations where the manager wishes to improve a portfolio’ income by exchanging a (lower) cash-flow pattern by another with a higher value, using a derivative or set of derivatives, without changing the asset’ portfolio composition, having a lower investment amount and less transaction costs.  
One of the options in the following closed list shall be used:  
1 - Micro hedge  
2 - Macro hedge  
3 - Matching assets and liabilities cash-flows used in the context of matching adjustment portfolios  
4 - Efficient portfolio management, other than “Matching assets and liabilities cash-flows used in the context of matching adjustment portfolios”  

<table>
<thead>
<tr>
<th>C0130</th>
<th>Notional amount of the derivative</th>
</tr>
</thead>
</table>
| The amount covered or exposed to the derivative, reported in the original currency.  
For futures and options corresponds to contract size multiplied by the trigger value and by the number of contracts reported in that line.  

| 43/67 |
For swaps and forwards it corresponds to the contract amount of the contracts reported in that line. When the trigger value corresponds to a range, the average value of the range shall be used.

The notional amount refers to the amount that is being hedged / invested (when not covering risks). If several trades occur, it shall be the net amount at the reporting date.

| C0140 | Buyer/Seller | Only for futures and options, swaps, and credit derivatives contracts. Identify whether the derivative contract was bought or sold. The buyer and seller position for swaps is defined relatively to the security or notional amount and the swap flows. A seller of a swap owns the security or notional amount at the contract inception and agrees to deliver during the contract term that security or notional amount, including any other outflows related to the contract, when applicable. A buyer of a swap will own the security or the notional amount at the end of the derivatives contract and will receive during the contract term that security or notional amount, including any other inflows related to the contract, when applicable. One of the options in the following closed list shall be used, with the exception of Interest Rate Swaps: 1 - Buyer 2 - Seller For interest rate swaps one of the options in the following closed list shall be use: 3 - FX-FL: Deliver fixed-for-floating 4 - FX-FX: Deliver fixed-for-fixed 5 - FL-FX: Deliver floating-for-fixed 6 - FL-FL: Deliver floating-for-floating |

| C0150 | Premium paid to date | The payment made (if bought), for options and up-front and periodical premium amounts paid for swaps, since the moment the undertaking entered in the derivative. |

<p>| C0160 | Premium received to date | The payment received (if sold), for options and up-front and periodical premium amounts received for swaps, since the moment the undertaking entered in the derivative. |</p>

</tbody>
</table>
### C0390 Trigger value

Reference price for futures, strike price for options (for bonds, price shall be a percentage of the par amount), currency exchange rate or interest rate for forwards, etc.

Not applicable to CIC D3 - Interest rate and currency swaps. For CIC F1 - Credit default swaps it shall not be completed if not possible.

In the case of more than one trigger over time, report the next trigger occurring.

When the derivative has a range of trigger values, report the set separated by comma ‘,’ if the range is not continuous and report the range separated by ‘-’, if it is continuous.

### C0400 Unwind trigger of contract

Identify the event that causes the unwinding of the contract, out of the regular expiration or term conditions. One of the options in the following closed list shall be used:

1. Bankruptcy of the underlying or reference entity
2. Adverse fall in value of the underlying reference asset
3. Adverse change in credit rating of the underlying assets or entity
4. Novation, i.e. the act of replacing an obligation under the derivative with a new obligation, or replacing a party of the derivative with a new party
5. Multiple events or a combination of events
6. Other events not covered by the previous options
7. No unwind trigger

### C0430 Maturity date

Identify the contractually defined ISO 8601 (yyyy-mm-dd) code of the date of close of the derivative contract, whether at maturity date, expiring date for options (European or American), etc.

### C0440 Swap delivered

Identify what the undertaking delivers under the swap contract (E.g.: Euribor+0.5%; 2.3%; EUR).

### C0450 Swap received

Identify what the undertaking receives under the swap contract (E.g.: Euribor+0.5%; 2.3%; EUR).

Cash-Flows (PF.29.06.24)
For the purposes of providing individual information at Member State level, NCAs shall submit the following information on an annual basis and mandatory for traditional DB schemes only. These are schemes where the benefit is guaranteed based on a formula as opposed to DB schemes which could also be classified as DC with guarantees. Only those IORPs that are included in the scope of the mandatory individual reporting as referred to in Article 1.14(a) of Decision 23/030 required to report this template. Reporting of cash flows of DC and other DB schemes is voluntary.

Only cash flows relating to current members and beneficiaries should be considered (‘closed modelling’), notwithstanding that cash flows for security and benefit adjustment mechanisms may depend on a national ‘open modelling’ approach.
Cash flows should be projected over the full lifetime of the pension obligations and should reflect expected realistic future demographic, legal, medical, technological, social, or economic developments over the lifetime of the pension obligations.

Cash flows projections should be consistent with existing national IORP systems, including the national supervisory framework and assumptions.

**PF.52.01 – PEPP and PEPP saver**

This section relates to annual submission of detailed information to be provided on a PEPP-by-PEPP basis. In addition, some information for a particular PEPP investment option, i.e. Basic PEPP or alternative investment options, shall be further described, by country in which this product is commercialised and by sub-accounts opened. In case the alternative investment options become, individually or on aggregate, significant in relation to the savings in the Basic PEPP, the information shall be reported at a more granular level or at the level of each investment option.

All values shall be provided as if it would be reported in accordance with the prudential framework under which remit the entity falls.

Information regarding all alternative investment options shall be aggregated.
